

EUROPEAN VETERAN RECORDS 2004

15.07.2004

Compiled by Ivar Söderlind, statistican of EVAA

*When two or more results are noted in one age group and event the first noted result is the official record. I have noted if the European Records in this list are Official World Records or better than the Official World Records. In 1999 and 2000 we have new javelins in many age groups. In the Recordlists I will present the records with the new javelin and also the old records with the old javelin if they are better than the new ones. In 2000 we also have the new hurdle height 68.6 cm for short and long hurdles in the oldest age groups. The old records with hurdle height 76.2 cm will be left up until it is better results with the lower hurdles. In some Champion Ships wind-gauge has been used but in the official result lists it was only noted if the wind was correct or not. (c = correct wind; up to 2.0 m/sec). All new records must be reported by a Record Application (preferably EVAA:s or WAVA:s Record Application)!! * = modified or new record 2003 and 2004*

Welcome to the Official EVAA Web Site: "www.evaa.nu"
